UNO Touch Screen Setting Note

2nd edition May 2004

Introduction

This document introduces how to enable/disable touch screen function.

NOTE

UNO support the touch screen function of FPM-3120/VOP-1150TV

How to setup the COM port for Touch Screen function

1. Select "Start"→"Advantech"→"Touch Screen"→"COM Port Config"

2. Note that touch screen function will occupy one COM port; therefore, If you want to enable touch screen function, you have to select a COM port for touch screen used.
