

USER CAUTION: Full-sized CPU boards

Edition 1
PN: 2002721020
Feb 2007

Handle the CPU board with Care to Avoid Bending or Breakage!

The CPU cooler is very heavy, therefore, when you hold and lift the CPU board, use both hands to avoid bending or breaking the board. Careless handling may cause damage to the board; components may snap or become detached from the PCB.

The correct method to hold the CPU board is pictured below:

Please avoid careless handling of the CPU board, as pictured below:
