Abstract	WISE-4000 & ADAM-6000 and 6200, The comparison table between WISE and ADAM series		
Keyword	WISE, ADAM, Comparison table, Difference, Cloud, P2P, GCL.		
Related Product	WISE-4012, WISE-4012E, WISE-4010LAN, WISE-4050 / WISE-4050 LAN, WISE-4051, WISE-4060/ WISE-4060 LAN ADAM-6017, ADAM-6050, ADAM-6051, ADAM-6052, ADAM-6060, ADAM-6066		

■ **Problem Description:**

What is the difference of WISE series and ADAM series? Do they have the same communication protocol and advanced function like P2P and GCL?

For WISE series, what's the difference between WISE and WISE-LAN? Besides the different communication interface, is there any other difference?

■ **Brief Solution:**

Please see the following comparison table between ADAM-6000-CE, ADAM-6200, WISE-4000-LAN and WISE-4000.

	ADAM-6000 (CE / DE)	ADAM-6200	WISE-4000-LAN	WISE-4000 (Wireless)
Communication Interface	Ethernet	Ethernet (Daisy-Chain)	Ethernet	Wi-Fi 2.4G / IEEE 802.11b/g/n
P2P/GCL	Support	Support	Support / X	Support / X
Utility Operation	Support	Support	Support	Support
MODBUS/TCP	Support	Support	Support	Support
RESTful	Support (XML/JSON format)	Support (XML/JSON format)	Support (JSON format)	Support (JSON format)
Local Data Logger	X	X	Support	Support
Cloud Data logger	X	X	Support	Support
Web Server	Support	Support	Support	Support

Cloud Data logger	WISE-4000-LAN	WISE-4000 (Wireless)
Private Server	Support	Support
