First time login

(第一次登入)

Username: admin

Password: admin

Step 2.

2) Settings (裝置) → Media Redirection Settings (媒體重定位設置)

The screenshot shows the BMC Settings interface. On the left is a dark sidebar with navigation options: Dashboard, Sensor, System Inventory, FRU Information, Logs & Reports, Settings (highlighted with a red box), Remote Control, Image Redirection, Power Control, Maintenance, and Sign out. The main content area is titled 'Settings Configure BMC options' and contains a grid of 17 settings cards. The 'Media Redirection Settings' card, which features a red icon of a computer monitor, is highlighted with a red rectangular border. Other settings include Captured BSOD, Date & Time, External User Services, KVM Mouse Setting, Log Settings, Network Settings, PAM Order Settings, Platform Event Filter, RAID Management, SAS IT Management, Services, SMTP Settings, SSL Settings, System Firewall, and User Management. The top right corner shows a breadcrumb 'Home > Settings'.

Settings Configure BMC options

- Captured BSOD
- Date & Time
- External User Services
- KVM Mouse Setting
- Log Settings
- Media Redirection Settings**
- Network Settings
- PAM Order Settings
- Platform Event Filter
- RAID Management
- SAS IT Management
- Services
- SMTP Settings
- SSL Settings
- System Firewall
- User Management
- IPMI Interfaces

Step 3.

3) VMedia Instance Setting (VMedia實體裝置設定)

Firmware Information
13.01.20220912
Sep 12 2022 01:37:31 UTC
● Host Online
● SYS ERR LED On

Quick Links..

- Dashboard
- Sensor
- System Inventory
- FRU Information
- Logs & Reports
- Settings**
- Remote Control
- Image Redirection
- Power Control
- Maintenance
- Sign out

Media Redirection

Home > Settings > Media Redirection

- General Settings
- VMedia Instance Settings**
- Remote Session
- Active Redirections

Step 4.

4) Change the CD/DVD device instances / Remote KVM CD/DVD device instances [4] to [0] and save it.

(將CD/DVD實體裝置 / 遠端KVM CD/DVD實體裝置 [4] 都修改成 [0]並儲存)

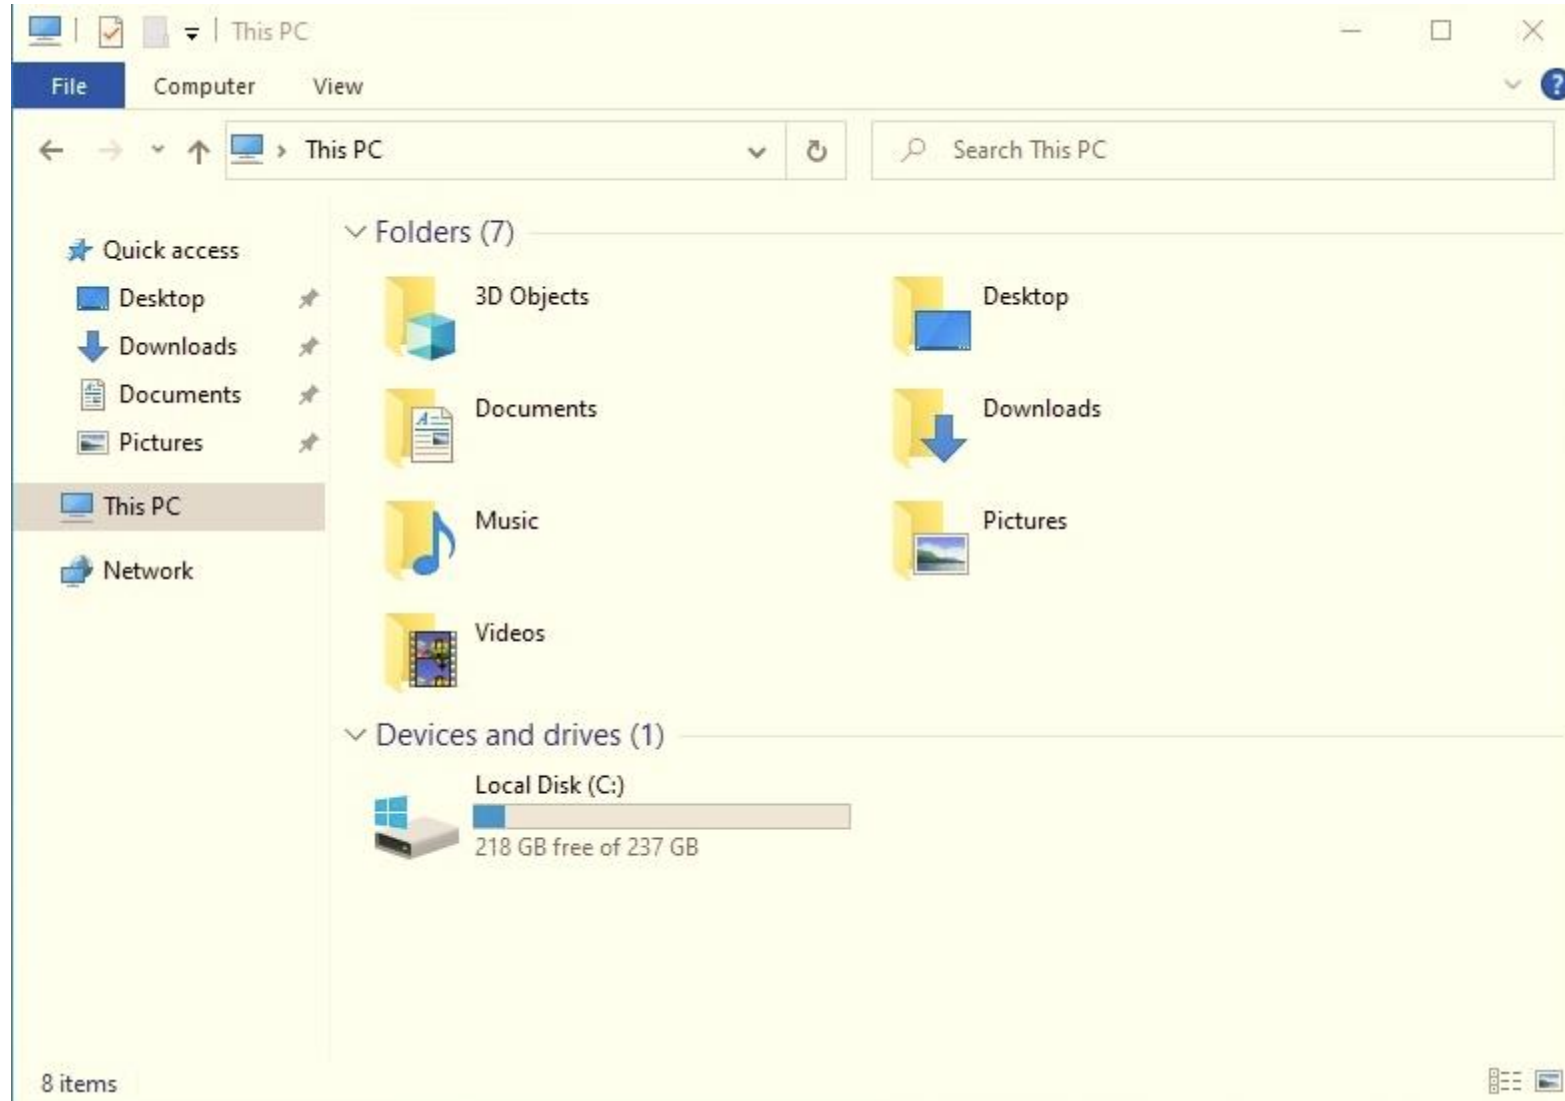

The screenshot displays the 'VMedia Instance Settings' page. On the left is a dark sidebar with navigation options: Dashboard, Sensor, System Inventory, FRU Information, Logs & Reports, Settings, Remote Control, Image Redirection, Power Control, Maintenance, and Sign out. The main content area shows the following settings:

- CD/DVD device instances:** A dropdown menu with the value '4' selected. This field is highlighted with a red box.
- Hard disk instances:** A dropdown menu with the value '4' selected.
- Remote KVM CD/DVD device instances:** A dropdown menu with the value '4' selected. This field is highlighted with a red box.
- Remote KVM Hard disk instances:** A dropdown menu with the value '4' selected.
- Power Save Mode:** An unchecked checkbox.

A blue 'Save' button is located at the bottom right of the settings panel. The breadcrumb navigation at the top right reads: Home > Settings > Media Redirection > VMedia Instance Settings.

Step 5.

5) CD/DVD will not appear after the system is restarted. (系統重新開機後VMedia就不會出現了)
