Abstract	How to use modsim to simulate the Modbus device.		
Keyword	Modbus.		
Related Product	N/A		

■ **Problem Description:**

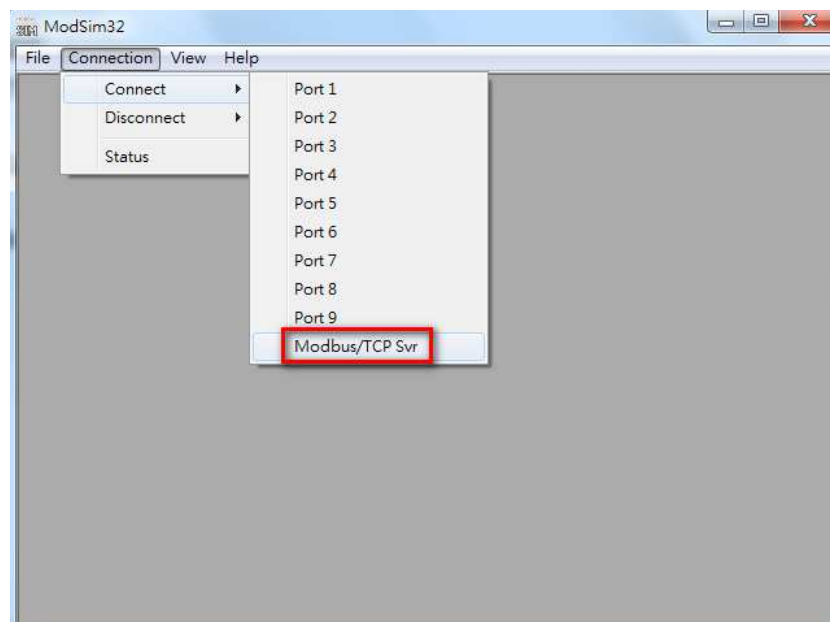

How to use modsim to simulate the Modbus device.

■ **Brief Solution - Step by Step:**

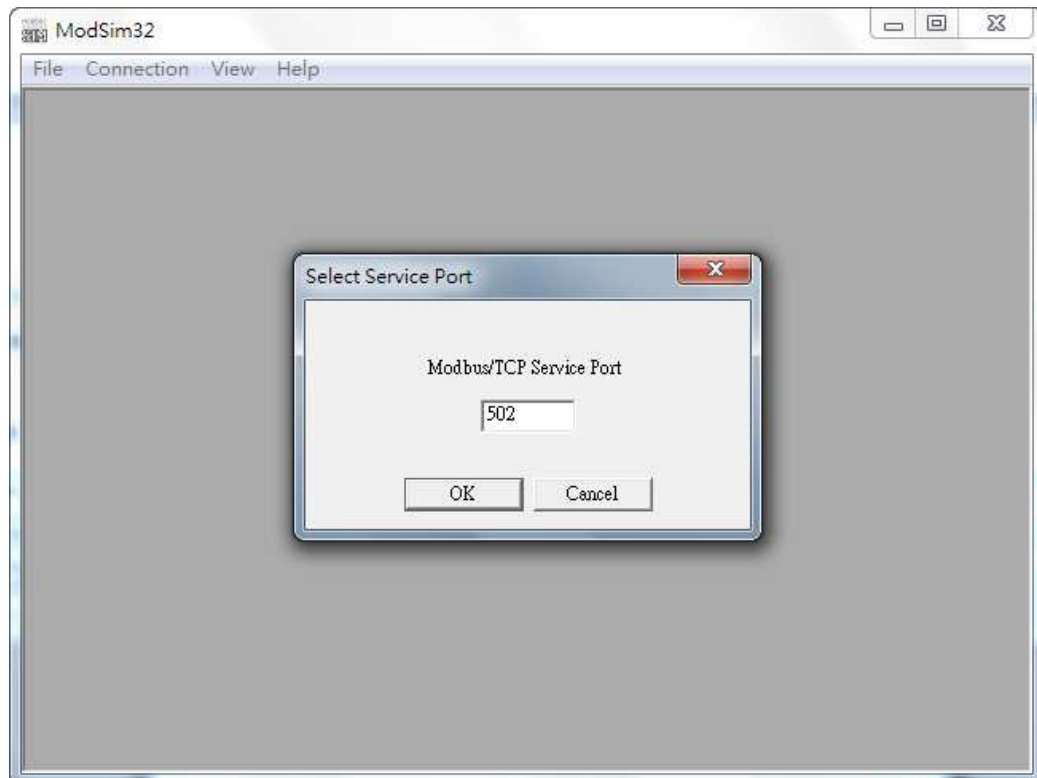

1. Execute modsim32.exe

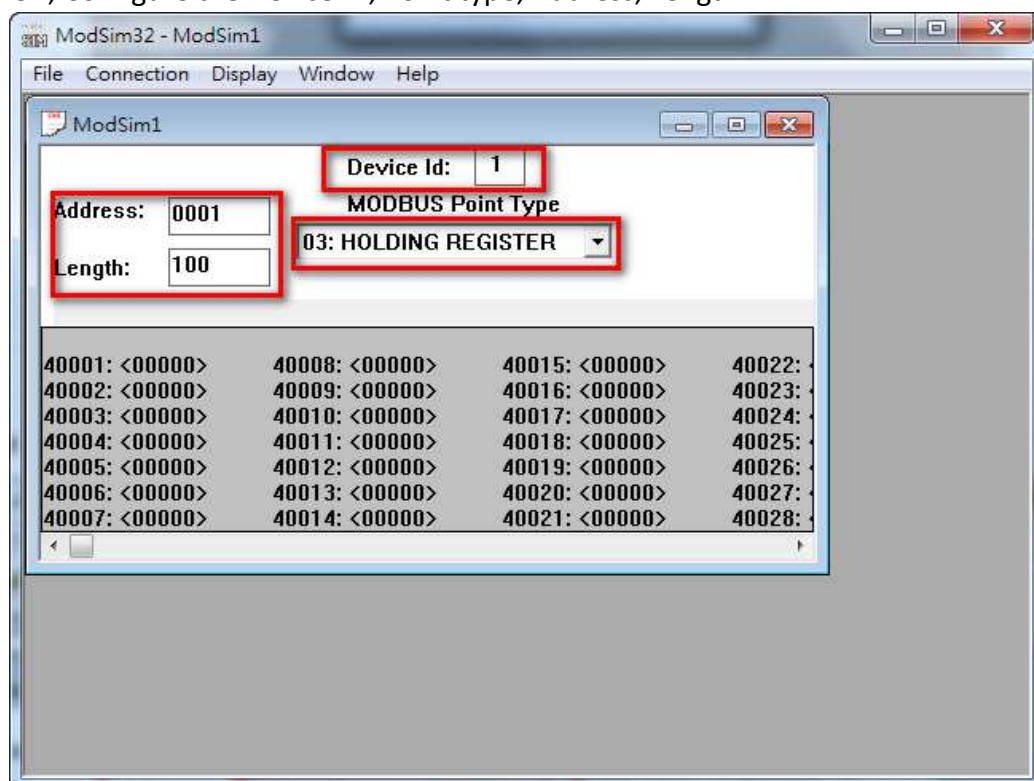

2. Select Connection -> connect->Com port or Modbus/TCP

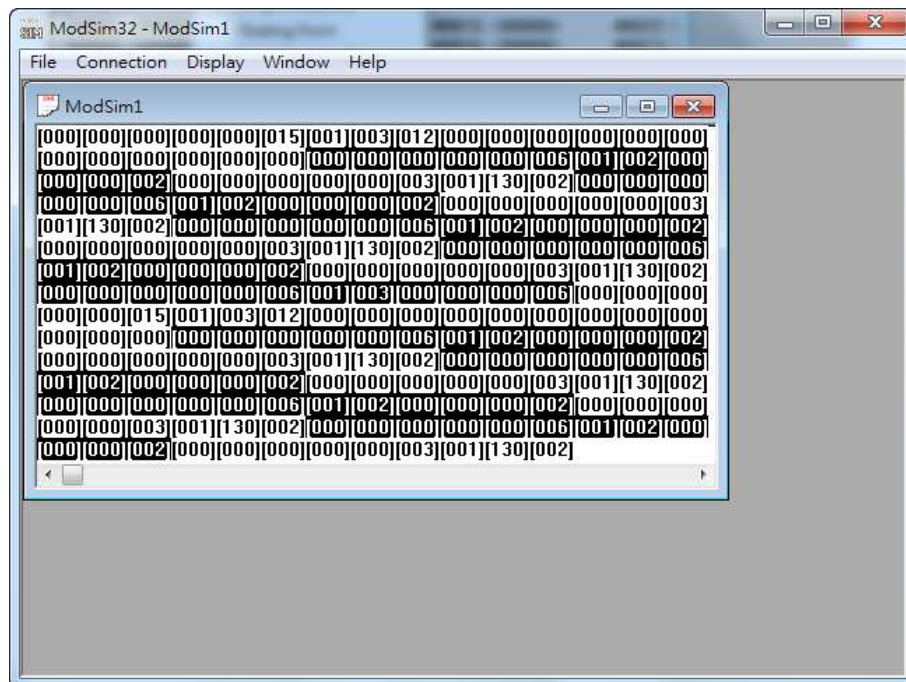

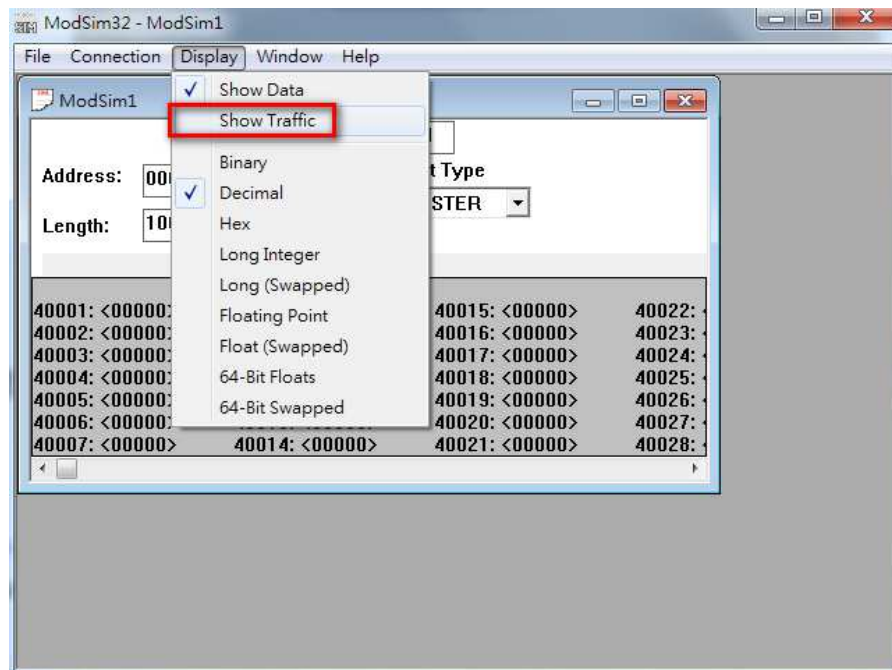

3. Key in port number

4. File -> New, Configure the Device ID, Point type, Address, Length

5. We can use Display -> Show traffic to monitor the communication of device & server.
