BB-WCD1H2102H BB-WCD1H3001HP100

Wzzard[™] Mesh Wireless Sensor Monitoring Nodes – Commercial Applications

Features

- Ultra-low power 802.15.4e SmartMesh IP technology
- Communicates with SmartSwarm 342 gateway via a highly scalable and reliable wireless mesh network
- Internal temperature & humidity sensing support
- Connect to industry standard analog or digital sensors
- MQTT and JSON IoT protocol to application platform
- Wide operating temperature range
- Monitor refrigeration, food processing/storage or light stacks

Introduction

Wireless Connectivity Where You Need It

The Wzzard mesh intelligent wireless sensor platform creates a complete, quick and easy connectivity stack between your sensors and your application, on your network or on the Internet. The platform uses Wzzard mesh wireless sensor nodes and a wireless 802.15.4e SmartMesh IP network to transmit sensor data to the gateway. The SmartSwarm 342 gateway connects to the Internet via wired connections or cellular data networks.

Reliable, Highly Scalable Wireless Network

The Wzzard Mesh platform uses mesh networking and time-synchronized channel hopping to provide up to 99.999% connectivity, even in demanding RF environments. New nodes may be added at any time — the SmartMesh IP network will dynamically self-configure as nodes are added or removed. This is a function of the mesh network itself and does not need to be controlled by the network gateway. One gateway can support up to 100 nodes.

Easy Installation and Configuration

Non-intrusive - even portable - network "overlay" is easy to install and remove with no disruptions to your existing network and no downtime. Configuration of the Wzzard mesh sensor platform is easy via the Advantech hub cloud management portal.

Ordering Information

Model No.	Description	
BB-WCD1H2102H	Wzzard Mesh Wireless 802.15.4e Sensor Node - HVAC/Cooler Node for Temperature & Humidity Sensing - 2 Al, 1 Dl, 1 Thermistor, Internal Temperature & Humidity, Internal Antenna	
Wzzard Mesh Wireless 802.15.4e Sensor Nod - Commercial Stacklight Node for Light Sensing - 3 Al, vBat Out, Internal Antenna - Internal Temperature & Humidity supported		

Accessories - Sold Separately

- Or included with select Wzzard starter kits (see kit/s below for details)

BB-WCHMS - Door sensor cable (open/close)

BB-WCHCBL - Thermistor/Breakout sensor cable

BB-LSSCBL - Light sensor cable (stack light)

BB-JC10F50V - 50A clamp-on current sensor (compressor, fan)

Dimensions [19.05] ,750 MAX [25.13] ,989 [120.38] 4.739

Starter Kits Available

Everything you need to get started – easy to expand later.

Refrigeration/Cooler Monitoring

Model# BB-WSK-REF-2

- 1 Wzzard wireless node temperature & humidity (# BB-WCD1H2102H)
- 2 Clamp-on current sensors (# BB-JC10F50V)
- 1 10K thermistor for temperature (# BB-WCHCBL)
- 1 Door open/close sensor (# BB-WCHMS)
- 1 SmartSwarm 342 Gateway

Stack Light Monitoring

Model# BB-WSK-SLM-2

- 1 Wzzard wireless node light (# BB-WCD1H3001HP100)
- 1 Stack Light Sensor Cable (# BB-LSSCBL)
- 1 SmartSwarm 342 Gateway

Specifications

Specifications			
Technology			
Wireless	802.15.4e, SmartMesh IP		
LED	Network Connectivity, Node Status		
Power			
Internal	3.6V 1650 mAH Lithium Thionyl Chloride 2/3 AA battery		
Battery Life	5-year battery life, based on 1 minute sensor sampling interval		
Mechanical			
Physical Connection	Molex® 6-pin MicroClasp™		
Antenna	Internal		
Mounting Options	Mounting bracket (included), VHB adhesive strip (included), or zip tie (ties not included)		
Dimensions	120.38l x 27.42h x 19.05d mm (4.74l x 1.08h x 0.75d in)		
Weight	0.09 kg (0.2 lb)		
Wireless Security			
Device Authentication			
128-bit AES-based encry	ption with multiple keys		
Message Integrity Check	(MIC)		
Synchronized Key Change	eovers		
Customized Key Rotation			
Thionyl Chloride Lithiu	m Battery* (1 supplied with product)		
Temperature Range	-60 to +85 °C		
Nominal Capacity	1.65 Ah		
Nominal Voltage	3.6 V		
Diameter	14.5 mm		
Height	33.5 mm		
*Potential Hazard: Do no	ot recharge, crush, disassemble or heat above +100°C (+212°F)		
Environmental			
Installation	Indoor		
Operating Temperature	-20 to +70 °C (-4 to +158 °F)		
Operating remperature	-20 to +70 °C (-4 to +130 °T)		
Storage Temperature	-40 to +85 °C (-40 to +187 °F)
