3 x Resistive Touch Display Modules for

TPC-B300/B510/B520/B520L/B610/B620 Computing Box

Interchangeable Display Modules with 12" XGA / 15" XGA / 17" SXGA

Features

- Modular front display design in three application-based module categories, enabling flexible configurations
- Front panel module with 5-Wire Resistive Touch available in various sizes (12.1", 15" and 17")
- Industrial-grade LED LCD
- System status LED indicators in front panel
- IP66-rated front panel and panel mount
- Rear mounted computing box or monitor box module is compulsory to activate display module

CE FCC cULus LISTED E180881 I.T.E.

Introduction

Advantech's modular resistive touch display series offers various display modules support 12", 15" and 17" to go with selections of computing boxes (TPC-B300/TPC-B510/TPC-B520/TPC-B520L/TPC-B610/TPC-B620) for multiple configurations that can be flexibly adapted to various scenarios. Modular resistive display series are equipped with industrial grade LCD, providing the best user experience and reliable operation. The modular design ensures flexible configuration and easy maintenance/upgrades. Its robust enclosure is equipped with a die-cast aluminum alloy front bezel and IP66 rating for protection from dust and water ingress.
